

Test Taking Strategies

Listen carefully to all oral directions.

Read all directions on the test twice.

Read each question very carefully.

Make sure you understand the question.

Read through all the choices before answering.

Eliminate answers you know are wrong.

Pace yourself and think carefully. Do not worry that some classmates are done. Take your time.

Manage your time. Do not spend too much time on one question.

Use context clues to figure out tough questions.

After you're done check all of your work.

If you have to guess, stick with your first guess.
